

Industrial IoT Connected Factories Industry 4.0

By embracing intelligent connected systems, manufacturers hold the key to increased productivity, improved asset management and faster decision making for maximized business value. IIoT opens the era of intelligent manufacturing where the entire production chain, including suppliers, logistics and product life cycle management are connected across frontiers.

In this talk you will learn from [Willson Deng](#) CEO, Arcstone & Chairman, Singapore Manufacturing Consortium about the challenges and opportunities in smart manufacturing, and how the organizations in the region are approaching the IIoT in their businesses.

DATE & AGENDA: Thursday, 25th Aug 2016

- 06:00 pm – Registration & Networking
- 06:45 pm – Introduction
- 07:00 pm – Expert Talk by Willson Deng
- 08:30 pm - QnA
- 08:45 pm - Networking continue

VENUE: NUS Enterprise@Blk71, 71 Ayer Rajah Crescent #02-01, SG139951

DETAILS & RSVP: <https://www.eventbrite.com/e/iottechspresso-industrial-iiot-connected-factories-tickets-26961306995>

Arcstone has developed an IoT/SaaS integrated platform to operationalize manufacturing data in real-time, that helps to maximize productivity, reduce production costs and improve product and service quality. Its clients consist of Fortune Global 500 Companies to a range of domestic SME's in Singapore and around the world.

ATC Alliance (AllThingsConnected Alliance) is a Singapore based company specialized in Business & Projects consulting in Internet of Things. We help our clients successfully navigate the booming IoT space.

IoTSG is the largest and the most active IOT Community in south east asia, focusing to enable a collaborative IoT ecosystem in the region. Join us at http://www.meetup.com/IoT_Singapore/

NUS Enterprise provides full spectrum of support to help individuals and organizations succeed in their entrepreneurial pursuits.
